

## QUAD TEAM PROFILE USA

Nine-time champion USA has only been out of the medals three times since the quad event made its World Team Cup debut in 1998 and has also only missed out on a place in the semifinals once, in 2016. Bronze medallist in 2017 and 2018, USA's team once again consists of four multiple World Team Cup medallists. Nick Taylor and David Wagner ended 2018 by becoming 11-time UNIQLLO Wheelchair Doubles Masters champions and the three-time Paralympic doubles gold medallists will now hope they can help their country become the first nation to take its tally of BNP Paribas World Team Cup quad titles into double figures.
